Have you ever reflected upon the very many funny things we do, for which we an givo no particular reason? How is t that we do not give are cheers, four cheers, two sheers, one cheer? Why is it that we give three cheers and no more? Who can tell?

Why is it that the majority of people me their right hand in preference to their left, and cannot help smiling at those who use the latter?

Why is it that a man cannot see a bundle of touthpicks without helping himself when he does not nood them at

Why is it that a small boy cannot let the thin-waisted wasp fly in peace, without furiously going for it with his new straw bat; or why is it that the small girl always insuts upon lugging home a kitten that has not evan learned how to open its eyes?

Why is that when any one asks us low many days there are in a certain nouth, we always say over to ourselves Thirty days bath September, April, June, and New Cuber? Why is it that we turn to the right

metrad of the left, when the left is by for more proferable, and if adopted would save many an accident on railroad and highway? The driver always sits upon the right of his vehicle in turn ing to the right he is farthest away from the wagon he passes, and unless he man expert cannot tell how close he comes o the wheels of the man who goes by him, whereas, if he turned to the left side, he could look straight down, see to the traction of an inch how close hi ear approaching an obstacle, and thus avoid it. The engineer runs upon the right hand track, and sits upon the right hand side of his cab. The long, narrow locomotive, with its sand tower, helfry and smoke stack is in front of him enting off his outlook and impeding his observation. He can view only his own track, while the opposite track, save at a distance, is almost wholly unseen by him . [On some railroads, the reverse is the custom [

Custom, owing to cause we know not d, has established these curious procedents and from observation and education we unwittingly do thousands of things that are, to say the least, funny, and that we cannot possibly explain

Let Your Children Sleep Enough.

As sleep is the period for replenish my the system, for restoring the colla wasted by the nervous activity of the day the period when the processes of digestion reach their final result, by elentifying the new naterment with the system in the place of the waste of the tissues -it follows that children need more sleep than grown persons. Many who might be plump, if given sleep sufficient, are flaced and sallow weary and fretful, because they do not sleep and Texas, I would choose the former." The above saying is verified every day by parties moving from the North. First and South and as they cannot decide exceeds as to the existence of the former they certainly around Texas, and like sensible industrious people, seek a pradustive country, such as Missouri, Kansas, Colora do, Nebraska and the Fin West. Render, are your contemplating a trip to such a country on business or pleasure. If so, select the line haying the least change of cars and lisst accommodations. The Old Rehable Hamibald St. Joseph R. R. (the Ploncer line west of the Mississippi River) offers you through Day Coaches and Pullman. Children of ten feel it very hard that they are sent to hed early, while the grown people sit up and enjoy themselves long after they are to bed. If any children chauce to read this paragraph, to them we would say "You need more sleep than your parents because you have to grow and they do not You need to use a good deal of the food you cat m growing larger and stronger, if you con same it all in activity, you will not have Therefore, you enough to grow with ought to sleep a great deal, and let the body rest from exercise, if you would grow strong and healthy

WHAT THE GENERAL SAID! A noted Central bring asked by some his friends how he liked Texas, it plied If I was obliged to choose between Hell and Texas, I would choose the former." The above saying is verified every day by parties moving from the North. First and South, and as they cannot decide exceedy as to the existence of the former they certainly avoid. Texas, and like sensible industrious people, seek a productive country, such as Missouri, Kansas, Colora do, Nebraska and the Fai West. Reader, are you contemplating a trip to such a country on business or pleasure. If so, select the line haying the least change of cars and list accommodations. The Old Rehable Hannibild St. Joseph R. R. (the Ploneer line west of the Mississippi River) offers you through Day Coaches and Pullman. Palace Sleeping Cais from Chicago, libs, Toledo, Ohio, and Indianapolis, Indiana, to the Missisir River with out change. Tourist and land socker's round trip excursion tickets on sale by this popular toute at all Eastern Ticket. As sleep is the period for replemsh mg the system, for restoring the colls wasted by the nervous activity of the day the period when the processes of digestion reach their final result, by identifying the new nutriment with the system in the place of the waste of the tissues -it follows that children need more sleep than grown persons Many who might be plump, if given sleep sufficient, are flaced and sallow weary and fretful, because they do not sleep enough to allow the demand of the sys tem for nutrition to be supplied Chil dren of ten feel it very hard that they are sent to bed early, while the grown people sit up and enjoy themselves long after they are to bed. If any children chance to read this paragraph, to them we would say 'You need more sleep than your parents because you have to grow and they do not You need to use a good deal of the food you eat in growing larger and stronger, if you con sume it all in activity, you will not have enough to grew with Therefore, you ought to sleep a great deal, and let the body test from exercise, if you would grow strong and healthy

Tite best receipt we know, if you want to be miserable, is to think about yourself, how much you have lost, how much you have not made, and the poor prospect for the future. A brave min with a soul in him gets out of such pit that ruts and laughs at discouragement, rolls up his sleeves, whistles and sings, and makes the best of life. This earth never was intended for Paradise, and the man who rises above his discourage. ment and keeps his manhood will only be the stronger and better for his adversitus. They Will Succeed.

A young man and woman arrived in this city yesterday who are destined to make their way in the world, "hard times or not. They walked all the way from Pennsylvania to this city, and were en route to Nebraska to take a home tead. They were both intelligent, and stated that they were unable to make anything more than a living in the cast and had determined to strike west and grow up with the country Their reason for walking was because they had not money enough to pay their fare. How ever, they were not penniless, and were not begging their way. The young man bought a cost of one of our dealers and struck out with his companion for the setting sun full of energy, and with a spirit that indicated planely that it was is intention to win in the battle of life That couple will succeed Council Blugis Nonpared

The best receipt we know, if you want to be miserable, is to think about yourself, how much you have lost, how much you have not made, and the poor prospect for the future. A brave min with a roul in him gets out of such pit that ruts and laughs at discouragement, ralls up his sleeves, whistles and sings, and makes the best of life. This earth nover was intended for Paradise, and the man who rises above his discourage. ment and keeps his manhood will only be the stronger and better for his adversitus.
